Hey guys. I'm new here and am currently rebuilding my sisters 2.0T BPY engine due to the cam chain breaking. I am looking for the torque specs for the rod cap bearing and the main bearing cap bolts torque specs. I have looked all over and do not have the Bentley manual or any other manual that would help me out. Thanks

Hey guys, Unfortunately, I believe that the source of my recent engine rattle is some failed rod bearings (not sure which cylinder are knocking). The noise doesn't appear to be coming from the valve-train or drivetrain, and it's consistent with RPM. This happened as a result of SUPER advanced timing at idle that resulted in some low-load detonation upon increasing engine loads.

Engine Rattle Diagnosis: Failed Rod Bearings due to Knock
