## **Africa Why Economists Get It**

“In his incisive book, *Africa: Why Economists Get It Wrong*, Jerven provides a critical analysis of the economic development literature on Africa.” , *African Studies Quarterly*  
“According to Jerven, the dominant narrative of African economic failure persists because economists ask the wrong question: they seek to explain why Africa has failed rather than show how Africa has actually performed.

## **Africa: Why Economists Get It Wrong by Morten Jerven**

With *Africa: Why Economists Get It Wrong*, Morten Jerven offers a bracing corrective. Neither story, he shows, is accurate. In truth, most African economies have been growing rapidly since the 1990s—and, until a collapse in the '70s and '80s, they had been growing reliably for decades.

June 8, 2015 by ChristopherEjugbo. I recently went to a book launch for a book titled "Africa: Why Economist Get it Wrong" by Morten Jerven. The biggest premise of the book according to the author is that most of the economic data about Africa are , in my own words frankly speaking made up. He contrasted the headline in the Economist in 2000 describing Africa as The Hopeless Continent with another headline a decade later in the same magazine enthusiastically talking about Africa Rising.
