### AstralPool | Pool & Spa Solutions

Natural evaporation will cause a water loss of between 2 and 5cm per week depending on how hot and windy it is. One quick way to check is to get a bucket of water and put it beside the pool and mark the line on the top of the bucket where the water is when first filled, mark a line inside your skimmer at the same time.

### FAQ | AstralPool | Pool & Spa Solutions

The ZX cartridge filter reduces maintenance while saving thousands of litres of water every year. It takes just 100 litres of water to clean the antimicrobial elements instead of backwashing thousands of litres to clean a sand filter. The ZX cartridge filter makes it easier to be responsible with water. Manual air bleeding is no longer necessary.
