Civil Engineering LAB MANUALS - Akido

The Westminster Computer lab, is a "thin client" lab where disk-less workstations are connected to a main server. Instead of the traditional thin client approach, this lab uses the "fat client" topology where although the computer accounts are contained and accessed by the server, applications are run in the internal memory (RAM) of the workstation computers.

Computer Lab Manual - CDOT Wiki

This lab manual is designed to accompany a college course introducing students to computing. The exercises are designed to be completed by the average student in a supervised 2-hour block of time at a computer lab over 15 weeks. The intent of each lab session is to introduce a topic and have the student feel comfortable
