Our ability to provide a voice for scientists and engineers and to advance science depends on the support from individuals like you. Whether you're a scientist, engineer, teacher, or science advocate, together we can be a united voice for scientific progress ...

Applied sciences and engineering/Engineering/Materials ...

I have a B.Sc and an ongoing Masters degree in metallurgical engineering. I had a course on Welding and NDE processes in grad school where the prof, himself a veteran metallurgical engineer in the welding industry, made the job of welding inspector sound quite fascinating (and it pays well, from what he said).
