LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

### Idiots Guide To Digital Photography

Idiot's Guides®: Digital Photography is the simplest guide to becoming a better photographer and taking better pictures with any basic digital camera or DSLR. Instead of focusing on complicated and quickly outdated topics like gear or retouching software, you'll learn the timeless principles of good photography, the essentials of every camera and lens, and how to use all that knowledge to take the pictures you previously thought were only achievable by professional photographers.

#### Idiot's Guides: Digital Photography: Frederick, Shawn ...

The Complete Idiot's Guide to Digital Photography does an excellent job of breaking the ice as it introduces readers to photography, computers, and digital cameras. The book really does start at the beginning, with a short history of the camera and photography, plus the basics of composition.

#### The Complete Idiot's Guide(R) To Digital Photography ...

this is a good book for those who know nothing about photography (thus, the "idiot's guide"), and i gave it four stars for that reason. but, for the amateur or student photographer, this book is worthless. the author covers the basics, and will give the reader a good idea of what photography is and how to take pictures. he gives a great intro to the digital world (this was the first book i bought, but quickly moved on to better, more specific books). i gave the book four stars because it is ...
