These are considered Nature's *lex non scripta* - unwritten codes of law. The origins of the identification, interpretation and documentation of these natural laws can be traced back to ancient Greece where eminent Greek philosophers like Aristotle, Cicero and Zeno of Citium (founder of Stoicism) emphasized the existence and importance of the natural law theory of ethics and code of conduct.

naturalis) is a system of law that purports to be based on values intrinsic to human nature that can be deduced and applied independent of positive law (the enacted laws of a state or society). According to natural law theory, all people have inherent rights, conferred not by act of legislation but by "God, nature, or reason."

Natural law - Wikipedia

Natural law, system of right or justice held to be common to all humans and derived from nature rather than from the rules of society (positive law). Its meaning and relation to positive law have been debated throughout time, varying from a law innate or divinely determined to one determined by natural conditions.

Laws of Nature (Stanford Encyclopedia of Philosophy)

I am often asked why I smile so much and why I am so positive. I live by some very basic beliefs and in an effort to share I created an abbreviated outline of the seven natural laws and added my two cents. Energy Is Everything! Energy is potential and momentum. There is a natural ebb and flow to life. It is important to accept what is and learn to move within the natural flow of energy.
