Yoke, Rudder Pedals and ...

Ok. You can do that all through the Calibration of the controls Ailerons and Elevators. Don't disable controllers in the Sim, don't assign in FSUIPC, for now at least. Read the chapter in the User Guide on Calibration, and follow the numbered steps there. Then make response curve adjustments in the Slopes option there

FSUIPC is a great tool for setting many aspects of your sim, in particular controls. It can be tricky to master though. In this video, Froogle shows how to bind controls in FSUIPC.

HOW TO USE FSUIPC FOR FSX

FSUIPC added controls are listed in the Advanced User's Guide. The best way to work them out, really,

Read Free User Guide Fsuipc

is to try them—pick one that seems to indicate that it may do what you want, and see if it does.
